Portage #02-08

**Portage Partners: Individuals and families that share in the cost and the labor of capital improvements at AC/CWC.**

**The Portage Partners' need is for new windows in the lodge.**

---

Adventurous Christians would like to continue the improvement of the lodge by replacing the windows in the dining area and in the lofts. The windows presently are not energy efficient and require to be covered with plastic during the winter months. This upgrade will greatly improve the appearance of the lodge but more importantly will save energy costs.

Friends of Portage Partners responded very well to the previous appeal. We thank you for your continued support and please understand that your financial commitment to AC is investing in lives living for Jesus.
